

August 22, 2014 – Recycling Update:

## **MMBC Depot Opening in Smithers!**

As of August 25, 2014, the Recycling Society of Smithers will operate a registered MMBC Depot.

This is a public drop off for ALL materials included in the MMBC program. Smithers residents who do not receive curbside recycling collection and residents of the regional district will be able to drop off their recycling. Residents who do receive curbside recycling collection will be able to drop off the “depot only materials” (glass, soft plastics and Styrofoam).

The drop off will be a combination of the Bulkley Valley Bottle Depot (3446 19th Avenue) and the Smithers Recycling Society Tatlow Road Facility (2880 Tatlow Road).

Glass and Styrofoam will be accepted at the Bulkley Valley Bottle Depot. ALL other MMBC materials will be accepted at the Tatlow Road Facility. Both are free drop offs.
