## **Reduce – Reuse – Recycle**

***It is not garbage if it can be reused, repaired, recycled or composted***

The Town of Smithers started 'residential recycle' collection program in May 2014. In BC, there is currently a 'Product Stewardship Program'. The Product Stewardship model is comprised of several key players working together to ensure that products no longer being used by consumers are managed in an environmentally responsible manner.

### **Products covered by the Industry Product Stewardship Program:**

British Columbia's Recycling Handbook – A simple guide to what can be recycled under BC's Stewardship Program (<http://www.return-it.ca/ips/index.html>)

Multi-Materials British Columbia developed a recycling program in early 2014. To view more information about MMBC and the future please refer to the following link - <http://multimaterialbc.ca/>.
