

## **Reduce – Reuse – Recycle**

***It's not garbage if it can be reused, repaired, recycled or composted***

Although the Town of Smithers does not do residential recycling pickup, there are many organizations in the Town of Smithers that do help with reuse, repair and recycling of items that are no longer needed.

In BC there is currently a 'Product Stewardship Program'. The Product Stewardship model is comprised of several key players working together to ensure that products no longer being used by consumers are managed in an environmentally responsible manner.

**Products covered by the Industry Product Stewardship Program:**
