Purchase of Carts (Residential or Commercial)

Carts have to be purchased outright from either the Town or the supplier - there is no renting or leasing.
Residential properties that can show proof of ownership of a cart before April of any year, will be given the discounted annual flat fee listed on the rates schedule.
Reimbursements will not be made during the year after the tax notices are sent out for discounted annual fees.

Purchase/Lease of Haul All Containers: (for properties other than single family dwellings)

Business owners can either purchase their Haul All containers outright, from the supplier OR or lease them, over 5 years through the Town.

Out right Purchase of Haul All Containers:

The purchaser will pay for all direct costs including taxes and shipping.
All purchases will be handled through the Town- the Town will notify the supplier beforehand and the invoice will be sent to the purchaser.

Lease to purchase of Haul All containers:

The Town will lease the bin through the MFA Leasing Program over 5 years.
The Town will bill the customer (quarterly) the actual lease costs over the next five years.
At the end of five years the customer will have outright ownership of the haul all container.
